

Community Pioneer (Associate Minister)

Are you,

- Interested to see what God is 'up to' in the world at large?
- Good at building new relationships, gathering and connecting people?
- Someone who can read the prevailing culture and context and adapt the Christian message and ways to their audience?

If you are then you may be just the right person to be our Community Pioneer.

This post seeks to build on the past and present and find new ways of being church which encourage the engagement of our wider community. The role is expected to be a full-time post with a £23,500 starting salary.

We are looking for someone ...

- to bring a creative and pioneering approach.
- to bring leadership to this area of church life, as well as being a hands-on practitioner.
- who is able to see and appreciate what those who already volunteer are providing, but able to see what would most appropriately compliment this and break new ground.
- who does not feel they have to do it all, but will also encourage and inspire others to get involved and use/develop their gifts.
- to make this role their own and have the freedom to be creative.

The deadline for applications is Monday 30th March 2020.

The role will have support from the Lead Minister and the Responsible Elder. This role will be key in taking the church forward as we look to live out the Christian life in a relevant manner within our local community.
